

## Creating Great Customer Experiences from Concept to Completion

*Kiosk Manufacturing, Technology Integration & Software Development All under One Roof*

Meridian's self-service solutions are built **from beginning to end** by our team of experts located across the globe

Because we own the entire process, we can guide our clients from start to finish, creating a robust solution to help **them reach their specific goals.**

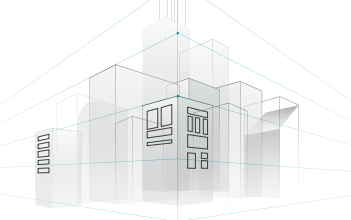

### Design Thinking

Meridian's designers use **Design Thinking** to create solutions that **help our clients address their market needs**

### Design Engineering

Meridian's experienced design engineers take the desired concept and create a **fully functional 3-D CAD model.**

### Full Fabrication

We welcome all of our clients to our 13-acre, 70,000 sq. ft. facility to see this step in person. Our manufacturing processes are ISO 9001:2008 certified and Meridian is a UL self-certify facility.

Cutting

Bending

Welding

Grinding

Painting

### Assembly

Each component of the self-service solution is fitted together and inspected before software integration.

### Integration

Software is integrated and tested by **Meridian's software engineers.**

### Quality Assurance

#### Check, double check and check again.

Each aspect of Meridian's self-service solutions are inspected by our experienced employees to ensure quality and functionality.

### Staging and Deployment

#### Staging is the final checkpoint.

Units are cleaned, inspected, wrapped, packaged, and prepared at our facility before being **Deployed** to the final destination.

### Support

Not only does Meridian provide the best products in the industry, we support what we sell with a dedicated support team ready to assist our clients.

Meridian's concept-to-completion methodology allows us to create a seamless experience for our clients and continue to be the Customer Experience Leader in Self-Service Solutions.
